

About Connecting MHA

The Murfreesboro Housing Authority has received a grant from TVA to provide free internet service for 3 years to residents of Oakland Court I, Oakland Court II, and Parkside Communities. In addition to internet service, residents will also receive access to energy assistance and savings information via the **connecting-mha.com** website.

This program is made possible through funding by TVA's Connected Communities grant.

How Can I Participate?

When Will the Service Become Available?

What if I Need Internet Access Before Then?

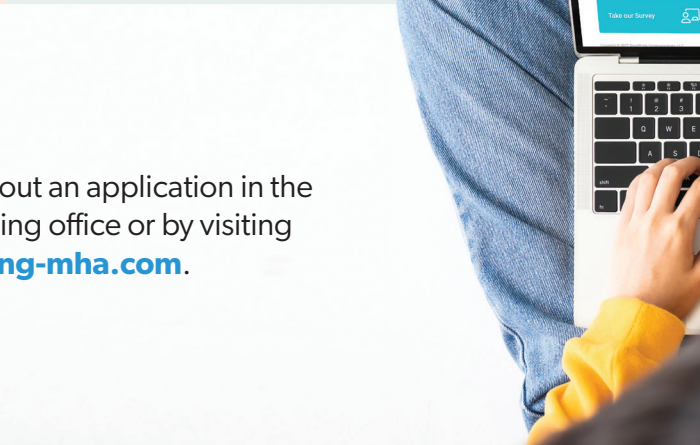

In order to participate, MHA residents must agree to participate in a quarterly energy education event. This can be as simple as watching a short video or reading a brief article on the website. Once completed, participants will fill out a brief survey and submit it to the Connecting MHA Team. The whole process will take between 15 and 30 minutes and only needs to be done once every three months.

Participants will be notified in advance what they need to do.

Service is expected to be offered this winter. When you sign up, you will be added to a list and notified when the service becomes available. Instructions for connection will come at that time.

Residents who need internet service before the Connecting MHA service becomes available can have the option of signing up with the provider of their choice. When Connecting MHA becomes available, residents will be notified and can switch to the new service at no additional cost.

How Do I Sign Up?

Please fill out an application in the MHA leasing office or by visiting connecting-mha.com.
